

ACRYLIC PAINTS

Code GLOBAL FINE ART IMPASTO ACRYLIC

Global Fine Art Student Impasto Acrylic offer brilliant pigments in a heavy bodied impasto formulation. A versatile student acrylic, it is ideal for bold structured techniques such as simulated oil painting with a palette knife or with thinning - delicate wash and watercolour effects. Compatible with all acrylic mediums and particularly the GLOBAL MEDIUM RANGE.

ACRYLIC PAINTS

Code PROFESSIONAL ARTIST ACRYLIC IMPASTO

Amsterdam Expert Acrylic is a well-balanced range of 70 excellent quality lightfast colours that will remain bright for decades. These colours contain a selection of the purest pigments which guarantee strong and intense colour. The range has the highest degree of lightfastness - the original colour will remain unchanged for at least 100 years (under museum conditions). A number of colours use only single pigments, producing the cleanest colours when mixed. This is a heavy body paint suitable for working with brushes and painting knives. When dry, Amsterdam Expert colours have a very durable and flexible paint film due to the use of 100% acrylic resin. Colours have a uniform degree of gloss, ensuring that no undesired differences in sheen occur when painting. Each tube is recyclable and clear, allowing artists to see the true colour and contents with ease.

ACRYLIC PAINTS

Code TALENS ART CREATIONS

Talens Art Creation is a reliable quality acrylic paint which is 100% based on acrylic resin. The paint is pasty, has a silky sheen when dry and can be painted over quickly. Talens Art Creation can be used both straight from the tube and thinned with water. The paint is waterproof when dry. Due to its adhesive properties this paint allows you to work on any moderately absorbent ground that is free of grease and dust.

Professional Artist Acrylic Impasto

Code PROFESSIONAL ARTIST ACRYLIC IMPASTO

The colour intensity comes from a high pigment loading using only lightfast pigments wrapped in a pure acrylic resin binder. There are no fillers and no thickeners used in the formulation making the colour completely fluid with very low viscosity and low surface tension - these acrylic are thinner than water! Compatible with all Global and other acrylic mediums. Try it with NEW Global Pouring Medium and String Gel Medium to create amazing abstract effects. The Global High Flow Acrylic range consists of 29 highly intense colours, including 5 Fluorescents and 3 Metallics.
